#01 Part 2

THE ORGANIZATIONAL UNIT EDUCATIONAL TECHNOLOGY (LLT)

*Educational Technology at the Graz Universtiy of Technology*

"The vision of Educational Technology at Graz University of Technology is to enrich teaching with media in order to improve communication and, in addition, to ensure sustainability through central control. The Graz University of Technology is to represent a large teaching and learning community in the information society of tomorrow; this is expressed by our guiding principle "WE CARE ABOUT eEDUCATION"."

learninglab.tugraz.at
Research Projects, Learning Objects and Tools in the Field of Technology Enhanced Teaching

Instructional Design
elearning.tugraz.at
Consulting, Schooling, Research Media Didactics, Copyright, Evolution

Cooperation
elearning.tugraz.at
In-house, National and International Projects

Within this wide range of possibilities for individual teaching and learning support, the following are the current main topics and fields of research:

Current research questions and emphases

- **A contradiction to the presence university?**
  Sustainable anchoring of virtual teaching at the Graz University of Technology
- **Freshly copied or all new?**
  Teaching materials and copyright in the digital age
- **What about the public education mandate?**
  Promotion of freely accessible, open educational resources (OER)
- **From research into practice:**
  Implementation of Learning Analytics projects

Did you know, for example, that with the decision of the Rectorate of April 4, 2017, a guideline for the regulation of "Virtual Teaching at Graz University of Technology" was issued? One point of this guideline states that virtual teaching as a didactic tool can be freely implemented by the teacher in lectures or the lecture part of a lecture/practical, up to a threshold value of 20% of the semester hours to be held. We are happy to advise you!

YOUR CONTACT WITH THE OU EDUCATIONAL TECHNOLOGY — OUR CONTACT TO YOU

Embedded and strongly linked to the other organizational units of the Vice Rectorate for Academic Affairs, we are the creative part of various communication and exchange formats, such as the "Lunch & Teaching" event, the "Senior Lecturer Lounge", the "LLT Breakfast" or the "Introduction day for new Employees", an offer of internal training. We aim to actively make ourselves known, and always create new incentives for you to get in touch with us.

Thank you for your interest in the opportunities of modern teaching.

In this sense:

LET US TEL YOU ABOUT eEDUCATION!
